The Ohio State University
College of Food, Agricultural, and Environmental Sciences
Ohio State PLOTS provides a SIMPLE tool to support on-farm research. It enables the setup of replicated field studies, captures notes and data during the growing season, and performs statistical analyses on crop/field data collected.

**KEY FEATURES**

- Create and store randomized, replicated layouts for your on-farm studies.
- Crop trial support that allows users to define experiments, collect data, and evaluate results.
- Automatic statistical analysis for collected data (population, yield, etc.) within plots.
- Data sharing with trusted advisors.
- Safe, secure log-in and cloud back-up.
