THE OHIO STATE UNIVERSITY
COLLEGE OF FOOD, AGRICULTURAL, AND
ENVIROMENTAL SCIENCES

Ohio State PLOTS provides a SIMPLE tool to support on-farm research. It enables the setup of replicated field studies, captures notes and data during the growing season, and performs statistical analyses on crop/field data collected.

KEY FEATURES

- Create and store randomized, replicated layouts for your on-farm studies.

- Crop trial support that allows users to define experiments, collect data, and evaluate results.

- Automatic statistical analysis for collected data (population, yield, etc.) within plots.

- Data sharing with trusted advisors.

- Safe, secure log-in and cloud back-up.
